**Avigilon Panoramic HD Dome Cameras Deliver Complete Coverage from a Single Camera**

Avigilon Panoramic High Definition Dome Camera

**Avigilon announced the introduction of the Avigilon Panoramic High Definition Dome Camera with High Definition Stream Management (HDSM) Designed specifically to provide complete coverage of ultra-wide angle scenes including lobbies, offices, and other tight spaces with fewer cameras.**

**A compact, multi-sensor camera with conventional lenses, the Avigilon Panoramic HD Dome Camera uses four 2MP sensors to achieve either 180-degree or 360-degree coverage. With the Avigilon 180° of Panoramic HD Dome Camera, each lens covers a 45-degree field of view, while each lens in the Avigilon 360° Panoramic HD Dome Camera covers a 90-degree field of view.**

NVRs that capture and preserve surveillance evidence using lossless compression, the Avigilon High Definition Surveillance System delivers the image quality necessary to protect the public and to secure airports, sea ports, borders and train stations. Other sectors that benefit from the superior performance of our high definition surveillance systems are the military, law enforcement, financial institutions, casinos, warehousing and transportation and critical infrastructure such as nuclear and petrochemical plants.

## Who Should Upgrade?

Anybody who requires a new feature of ACC 4.0 should upgrade. Anybody who needs to record a 3rd party IP camera, an Avigilon 8MP-HD-DOME-360, or an Avigilon 8MP-HD-DOME180 has to upgrade to ACC 4.0. All upgrades to ACC 4.0 are available at no additional charge if a system already has a license for ACC 3. Upgrades from ACC 3.8 preserve all video and settings, servers must be upgraded to ACC 3.8.2.6 first to allow upgrade to ACC 4.0.

### High Definition Stream Management (HDSM) End-to-End Open HD Surveillance Platform

## Avigilon's High Definition Surveillance System is comprised of:

- Avigilon Control Center Software - ([for additional information click here](#))
